

ANTOJAM

TECHNICAL & SUPPLY CO.LTD

ABOUT US:

ANTOJAM TECHNICAL & SUPPLY CO. LTD is interwoven with the development of the Antojam projects contracted in different industry in the Tanzania Mainland and Zanzibar in last 10 years. Throughout its time in the current Market

ANTOJAM TECHNICAL & SUPPLY CO. LTD has conducted various projects such as, Boiler and Burner Installation and Commissioning, Insulation works (Hot and Cold) Boiler and Burner Services, Stainless and Mild steel piping works (Industrial Piping system), Supply of Boiler and Burner spare parts, Combustion Test and Flue gas Analysis, Bottle washer servicing, All metal Fabrication works (Stainless steel Tanks, Chimney, etc.), Supply of Cooling tower and installation, Duct and Ducting System, Supply of Incinerator Spares and supply and installation of LG Ecov system) ERV (Energy Recovery Ventilator). We are one among the leading suppliers of industrial equipment and spare parts. Our range of supply consists of Industrial Machine Tools, Mechanical & Electrical Equipment's, Compressors, and Pumps, Geared Pumps, Generators, Motors, Switchgears, Process control and Instrumentation. (Spares for all type of machinery and equipment's). Our Trading department also is in a position to source any of your requirements from all

over the world to other manufacturers. We can also arrange our Engineers on a special case basis in case of repairing and/or maintenance of plant and machinery. Please forward your concrete and specific enquiries so that we can make specific offers for boosting your field of operation irrespective of your business field. Our sales engineers and technical specialists work to identify the right solution for every customer in need.

Company Registration

Our purpose is to positively impact lifestyles of the communities we serve through consistent, timely, quality, efficient and value added delivery of engineered, innovative, and tailor-made technology solutions that constantly exceeds expectations. We uphold the recognition of our company for its excellence in human value practices and commitment to its customers for generations to come.

Our Vision

Our aspiration is to become a sustainably growing and profitable engineers and contractors through building effective and efficient operations in identified markets and to consolidate as a recognized brand in all our fields of activities in our target market. To be company of choice in the market.

Our Capacity

We are engaged in Insulation, Boiler installation, commissioning & servicing, pipe fitting for industries, house/office & cold room building & maintenance, plant erection, All metal fabrication (Chimney, Tanks both Stainless steel and Mild Steel), domestic & industrial electric installation, Diesel Generator and Compressor sets installation & servicing.

Our Mission

Our purpose is to positively impact lifestyles of the communities we serve through consistent, timely, quality, efficient and value added delivery of engineered, innovative, and tailor-made technology solutions that constantly exceeds expectations. We uphold the recognition of our company for its excellence in human value practices and commitment to its customers for generations to come.

Our values

It's all about Technology, People & Values! This slogan is not just a tag line. It is our way of living. An attitude we are practicing for 10 years now. 10 years during which we always put our team first without whom it would be impossible to reach our current foot print.

HONESTY: We deliver what we promise

TEAM BUILDING: Team whose main objective is customer satisfaction

INTEGRITY: We stand behind what we say; we take responsibility & accountability of our decisions.

Our Pillars:

A result oriented approach – through an efficient and “can do attitude”.

- 1** Excellence and efficiency– through proper thinking, planning and implementation.
- 2** Team Work– an open exchange of information and resources with our clients.
- 3** Team Work– an open exchange of information and resources with our clients.
- 4** Professionalism– a fully “focused on the job” approach.
- 5** Adaptability– a receptive approach to customer needs.
- 6** Diversity– through a team that is built around diverse cultures.
- 7** Innovation– research and a creative approach to problems and solutions.
- 8** Learning– technical and managerial training of our team.

Our Customers:

ANTOJAM TECHNICAL&SUPPLY CO. LTD has covered most of the sectors in various industries. The clients we work with includes:-Hotels, food processing industries, chemical processing industries, Non –Governmental institution and finally Government institutions.

Our Corporate Citizenship:

ANTOJAM TECHNICAL&SUPPLY CO. LTD is Corporate Citizenship" really means developing mutually beneficial, interactive and trusting relationships between the company and its many stakeholders: employees, customers, communities, suppliers, governments and investors through the implementation of the company's strategies and operating practices. We treat all of the company's stakeholders and our natural environment with dignity and respect. We firmly believe that good corporate Citizenship has an impact on the success of our business. Our 'Corporate Citizenship' forms the basis of the way we operate.

Our Board

ANTOJAM TECHNICAL&SUPPLY CO. LTD multi-discipline administrative, financial and engineering teams operate in full transparency and governance under a Board's of Directors, which regulates the Group's orientations and practices.

Our Services:

ANTOJAM TECHNICAL&SUPPLY CO. LTD delivers product and services to any customer regardless of size, time, geographical location and project size. Whether is material supply, project startups, maintenance, and consultancy in Boilers, Burners, No steam Produce, Troubleshooting, Emergency Breakdown, Arresting Leakage, Supply of Fittings, Boiler Rehabilitation, Boiler electrical System, Ducting work, All metal fabrication, new plant erection, and so many others. We do this with our knowledge and the best to our abilities with a strong unified team of engineers.

INTERNATIONAL BUSINESS RELATIONSHIP

I. FORBES MARSHAL

We are **the Only Agents of Forbes Marshall Boilers**. Forbes Marshall is a trusted partner in steam engineering control instrumentation, offers high quality steam boilers, boilers, boiler house products and burners. Forbes Marshall offers a wide range of efficient and safe boilers. Forbes Marshall has a range of unique products, systems and software to help you keep track of exactly how much energy you consume and where it goes.

Location; Forbes Marshall's headquarters are found in India, but it has its sub-branches around Africa.

INDIA

Forbes Marshall Pvt. Ltd.
P B # 29, Mumbai-Pune Rd.,
Kasarwadi, Pune 411 034

i) We have installed several boiler and commission in Tanzania with different capacity. e.g. Darbrew (Chibuku) 6 Ton Boiler, SBC Tanzania Limited (Pepsi) 6 Ton Boiler and 3 Ton Boiler, Tanga Fresh Ltd 2.5 Ton Boiler, Coca Cola Kwanza Ltd 6 Ton boiler, Tanzania Distilleries Ltd 4 Ton Boiler, Banana Investment Ltd 3 Ton Boiler and etc. Our clients have all been getting Supports on the Boilers incase of any Boiler break down and the need for Boiler spare parts. It has been easy for them because we Antojam technicaland Supplies Ltd. made it easy for them .

II. THERMAX LIMITED

Thermax Group is an INR 4,899 Cr. (661 Million US\$) company headquartered in Pune, India. Its business portfolio includes products for heating, cooling, water and waste management, and specialty chemicals. The company also designs, builds and commissions large boilers for steam and power generation, turnkey power plants, industrial and municipal wastewater treatment plants, waste heat recovery systems and air pollution control projects.

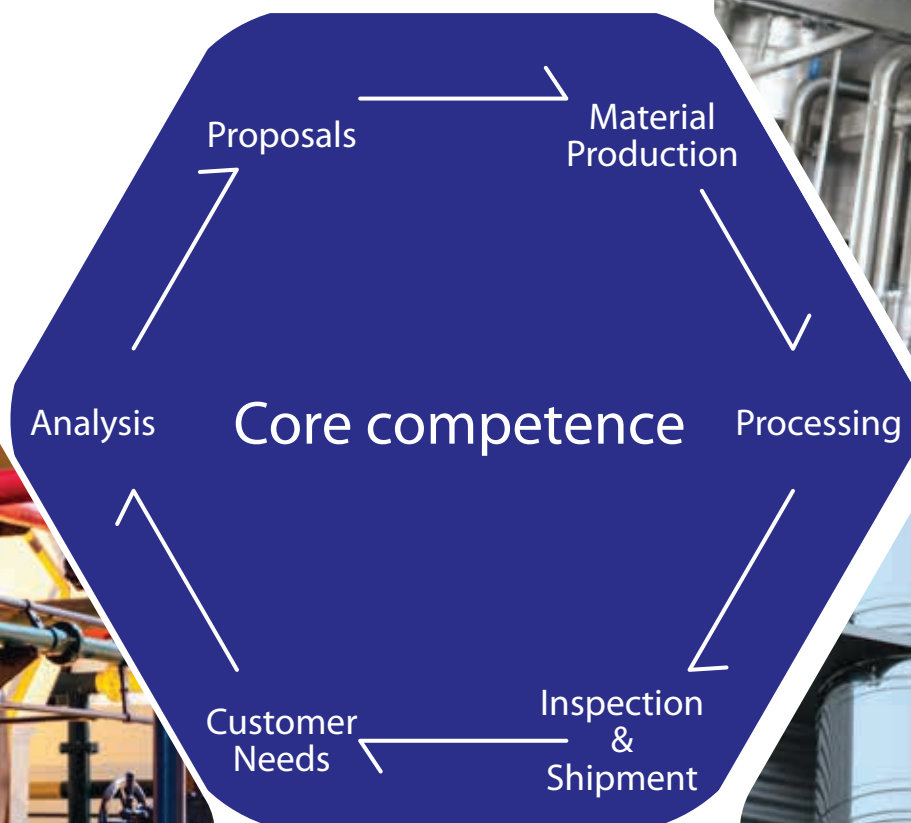

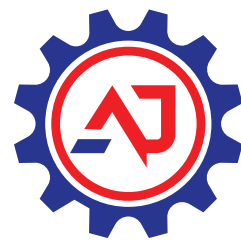

The systems, products and services developed by Thermax help industry achieve better resource productivity and improve bottom lines, while maintaining a cleaner environment.

Even as we convert costs to profits, we help to protect the environment in our own limited ways. A win-win for industry and the society at large. They operate globally through 29 international offices and 14 manufacturing facilities – 10 of which are in India and 4 overseas.

Our presence spans 88 countries and supports customers through an extensive sales & service network spread over Asia, South East Asia, Middle East, Africa, Europe and the Americas.

The group consists of 7 wholly owned domestic subsidiaries and 21 wholly owned overseas subsidiaries..

GUARANTEE OF GOODS AND SERVICES

ANTOJAM TECHNICAL&SUPPLY CO. LTD once we have establish the business relationship with client, we shall provide the client with products and services at all levels. This is because we have a dedicated and committed staffs who practically understand all local possibilities, limitation, eventualities and regulation of the business industry towards customer satisfactions.

Services:

Our Services and Capabilities:

ANTOJAM TECHNICAL has advanced capabilities necessary to develop the best solutions for a wide range of piping needs. We continue to invest in technically advanced equipment and innovated processes. Our goal is to provide customers with top-notch cost-effective piping solutions.

ANTOJAM TECHNICAL has invested in the most advanced welding techniques in the market. This state-of-the-art technology uses micro-controller and electronic technology to assist our skilled craftsmen in producing high quality welds in Engineering. Our modern facilities and experienced staff are capable of handling all types of projects at the same time while providing competitive pricing.

[Stainless Steel Piping]

ANTOJAM TECHNICAL has a technical expertise in industrial piping especially in stainless steel material which makes the high profile liquid handling capability and high hygiene. These materials are fabricated and jointed in industrial standard which proof to be fit to handle any type of liquid passing through it. Stainless steel material is highly recommended nowadays because of its highly corrosion resistance and good machinability in:-

- 1 Chemical and petrochemical.
- 2 Power generation.
- 3 Renewable energy.
- 4 Pulp and Paper.
- 5 Process piping.
- 6 Pharmaceutical.
- 7 Food and beverage.
- 8 Oil and gas.
- 9 Water/waste.

Our wide breadth and depth of both seamless and welded stainless pipe fabrication and plumbing is sure to cover your requirements. It has always been our goal to multi-certify our project to the maximum number of industry standard specifications.

FABRICATION OF STAINLESS STEEL AND MILD STEEL TANKS

Stainless steel Tanks

Stainless steel tanks can be used to store many different substances, including chemicals, food, water, and other bulk materials. Stainless steel is a frequently used material of construction due to its inherent flexibility and relative ease of use. Stainless steel is also prized for its corrosion resistance and ability to resist extreme temperatures. These unique features make stainless an ideal option for sensitive material storage, in particular.

Stainless steel Tank Capability & Specification

The exact specifications for each stainless steel tank will depend on the specific application and industry; the product to be stored, how it must be handled, how often the tank must be cleaned, and a range of other key factors will all help in determining tank specifications and features. Supplementary services supplied include:

- Full range of connections, fittings and accessories can be supplied and fitted to suit a customer's specifications

- Design and manufacture of stairs, access platforms, ladders with safety cages and hand rails to customer specifications

- Internal coatings and tank linings to customer specification including DWI regulation 31 approved and potable water coatings

- External coating to customer specifications

- Tank insulation and cladding to customer specifications

FABRICATION OF MILD STEEL TANKS

Custom steel bulk storage tanks are, by definition, specified and built according to the particulars of their intended uses. This includes fabricating them with the required dimensions and features, but it also involves selecting a suitable grade of steel. As a relatively inexpensive material that meets the requirements for most storage applications, mild steel is a great choice for tanks designed for chemical, fuel, oil, and water storage. Depending on the material stored, Mild steel tanks can also be lined with different types of epoxy, polyurethane or rubber in order to prevent corrosion and leakage.

BOILER SALES AND SERVICES

We receive the order for boiler requirement base on the size, scale and specification of the customer, and we order to the manufacture company. Also we have a wide range of spare parts for the boiler regardless of size and its geographical location.

The following is a complete spare part for steam industrial boiler, you can press an order base on the spare number:-

We sale and supply mechanical and electrical industrial spares, base on the customer need

Spare No.	Spare Name	Spare No.	Spare Name
1	Nozzle Rod	24	Oil Duplex Filter - Complete
2	Coil for Nozzle Solenoid Assembly	25	Solenoid Valve for Steam
3	Ignition Electrode (Available as a set)	26	Teflon Washer
4	Ignition Cable (Available as a set)	27	Conical Washer
5	Flame Tube	28	'U' Seal for Nozzle Rod
6	Water Pump & Spares	29	'U' Seal for IPR & BPR Valve
7	Ignition Transformer	30.	'O' Ring for Duplex Filter
8	Insulator for Electrode	31	'O' Ring for Preheater
9	Cam Disc Assembly	32	Modulating Mechanism
10	Diffuser Plate	33	Modulating Motor / A.R. Motor
11	Oil Duplex Filter Element (alone)	34	A.R. Strip
12	' Y ' type Strainer	35	Pressure Gauges
13	Element for ' Y ' type Strainer	36	Pressure Switch
14	Water Level Controller (Mobrey)	37	Back Pressure Regulating Valve (BPRV)
15	Inlet Pressure Regulating Valve (IPRV)	38	Rectifier
16	Oil Preheater – Complete (Steam / Electric)	39	Potentiometer
17	Temperature Controller for Oil Preheater	40	Positioning Card
18	Electrical Heating Element	41	Gauge Glass Assembly–Complete
19	Thermometer (Analog Type)	42	Gauge Glass (alone)
20	Limit Switch	43	Reflex Glass
21	Micro Switch	44	Ebonite Bush for Gauge Glass
22	Pressureraul Switch	45	Burner Sight Glass – Blue / White
23	Rotary Switches for Panels	46	Complete Burner

HOT SURFACE INSULATION AND HEAT PRESERVATION.

ANTOJAM TECHNICAL expertise helps facilities operate, expand, or revamp at maximum efficiency while minimizing risk and repairs. Our insulation team includes skilled craftsmen who are highly qualified to install a variety of products to meet your specifications and exceed your expectations. By combining our insulation abilities with our state of the art of specialized services, we can assure a safe, cost effective solution to all of your project needs.

ANTOJAM TECHNICAL management team and supervision have the experience required to ensure that proper installation is achieved and that safety is our top priority. In addition to our highly qualified senior management staff, we also monitor our productivity, costs, and provide our customers with real time cost.

ANTOJAM TECHNICAL is extremely capable of supplying you with all your insulation needs and is committed to earning and maintaining our customers' respect and confidence. We take pride in our ability to perform our work while being both cost and time efficient.

SERVICE TYPES OF INSULATION:

- i. High Temperature piping,
- ii. duct and equipment of all kinds,
- iii. Low Temperature piping,
- iv. duct and equipment of all kinds,
- v. Heat Conservation,
- vi. Custom Insulation,
- vii. Blankets Corrosion Under Insulation (CUI),
- viii. Flexible Sheets,
- ix. Sound Attenuation,

TYPICAL SYSTEMS INSULATED:

- i. HVAC piping systems,
- ii. HVAC Duct Systems,
- iii. Incinerators,
- iv. Exhaust Chilled Water Pipe,
- v. Equipment Boilers,
- vi. Storage Tanks,
- vii. Process Piping Systems,
- viii. Process drums,
- ix. vessels, and exchangers

TYPES OF PROJECTS:

- i. Industrial Pulp and Paper,
- ii. Food and Drug,
- iii. Industries Refineries,
- iv. Chemical Facilities,

DUCTWORKS;

Ducts are used in Heating, Ventilation & Air Conditioning (HVAC) to deliver the supply air and transit the return air and remove the exhaust air. As such, air ducts form a medium through which a conditioned air is transferred to an ambient space therein achieving acceptable indoor air quality and ensuring suitable thermal comfort.

These ducts are made out of Quality Galvanized Iron Sheet (GI) sheets manufactured by metal industry's leading steel manufacturers and use of quality GI sheets ensures rigidity. Spiral duct is attractive and is frequently specified by architects because of its superior aesthetic appeal; it can be finished to blend in with or stand out in an indoor ambience.

Mild Steel Ducting;

MS ducting is made from the high quality mild steel which contains 0.16–0.29% carbon being neither brittle nor ductile. In kitchen exhaust and Boiler Chimney MS ducts are largely used owing to its inherently fire resistant characteristic which can be further enhanced by Fire Rated Spray Coat or painted with multiple coats of Red Oxide.

Stainless Steel Ducting;

These are useful for businesses and large manufacturing companies which calls for its specialized use in voluminous and industrialized applications. Use of stainless steel ductwork for any specialist application is recommended for its strength and rigidity which is similar to a galvanized iron duct. Its appearance though is much sleeker than the one in an aluminum duct it stands way out for its corrosion resistant characteristic.

Aluminum Ducting;

This lightweight malleable and corrosion resistant metal in 'Stucco Embossed' type is used as cladding on exposed Rectangular or Spiral duct. Apart from this, Plain type (Reflector / Matt finish) is also widely used as air ducts in areas such as swimming pool, clean rooms of sensitive/industrial films etc.

ANTOJAM TECHNICAL AND SUPPLY CO. LTD.

has a long and strong history in the boiler industry and has its roots in the manufacturing Industrial; we share the unique platform with multidimensional national and international investors, We have come across some challenges which give us a good chance to learn and fulfill our customers/client and both of us we reach this point of success with an intuit number of customers we have already work with.
